

DRIVEWAY SAFETY CHECKLIST:

- Any toys (balls, bikes, scooters, etc.) are put away far from the driveway where children cannot access them.
- My child has restricted access to the driveway because of locks on the doors, gate, or fence.
- I always hold my child's hand when we are outside and know a car will be entering or exiting the driveway.
- I have talked to my child about what a blind zone is and always remind them that the driveway is a danger zone.
- I always walk around my vehicle before starting my car and backing out/pulling forward.
- I keep my car keys hidden from children and never allow my child to play in or around the car.
