The Miriam Hospital**

ADVANCE DIRECTIVES

Tells your doctor what kind of care you would like to have if you become unable to make medical decisions (e.g., coma).

IMPORTANT COMPONENTS

- Specifies treatments that you do want
- Specifies treatments that you do not want
- Helps your family and providers to know your wishes ahead of time

TYPES OF DOCUMENTS

- Living Wills
- Health Care Proxy
 - (Durable Power of Attorney)
- DNR Orders

LIVING WILLS

- Describes the type of treatments you want in certain situations
- Withhold or withdrawing of care
- Does NOT give decision making responsibility to a specific person
- Limited in scope
- Easily revoked by patient

HEALTH CARE PROXY / DPA

- Specifies who you have selected to make health care decisions
- Active as soon as unable to make decisions
- Permits you to specify guidelines and limitations
- Flexible to changing circumstances
- Easily revoked by patient

COMMONLY USED LIFE-SUPPORT MEASURES

- CPR and/or Defibrillation
- Mechanical Ventilation
- Artificial Nutrition and Hydration

WHAT TO DO WITH DOCUMENTS

- Person designated as Health Care Proxy
- Children
- Physician/Hospital
- Safe deposit box
- Glove compartment of car
- Electronic copies

IMPORTANT CONSIDERATIONS

- Choosing the Health Care Proxy
- Religious/Spiritual beliefs
- Organ/Tissue donation
- If have an implantable defibrillator (ICD), shock deactivation

WHY SHOULD YOU DO IT?

- Only way to ensure your wishes are followed
- Helps your family to make decisions
- Hospital policies may rule if family disagree

HOW DO YOU DO IT?

- Talk with attorney
- Internet
- Ask at medical appointment/upon admission to hospital

Example of Internet Site:

- Caring Connections (National Hospice and Palliative Care Organization):

www.caringinfo.org

- Rhode Island Advanced Directives:
